

Care Across the Campus

When Wyndemere resident Isabelle Bartel fell and broke her hip last January, she experienced the continuity of care across the Campus first-hand.

After being in the hospital, Isabelle, received therapy at RehabTrack at Wynscape and had a brief stay at Westbridge, before returning to her Wyndemere apartment, assisted with home health care.

“The staff was very concerned and I received great care in the two and a half months I was at Wynscape,” said Isabelle. “I’ve never had better therapy. My therapist was attentive and knowledgeable and I enjoyed interacting with the other patients in therapy.”

At Westbridge for a week’s stay, Isabelle enjoyed meeting other residents in the dining room located on each floor. “You can get to know practically everyone on the floor,” said Isabelle. “Staying at Westbridge was a very pleasant experience.”

But now, Isabelle is back home at her Wyndemere apartment, with her little Shitzui dog, Mitzi. Isabelle and her husband first came to a Wyndemere townhome in 2002. But when her husband passed away in 2006, she moved to an apartment home. “We loved it from the very beginning,” said Isabelle of the couple’s decision to choose Wyndemere. “It feels like family here. I wouldn’t want to live anywhere else.”
